Planetbound is a 2D Arcade Rotatory Shootemup in w 5d3b920ae0

Title: Planetbound
Genre: Action, Casual, Indie
Developer:
T_T Games
Publisher:
T_T Games
Release Date: 26 Jun, 2017

English

planetbound

Please provide a better tutorial on how to upgrade your planet and such functions. There is no in-game tutorial either.. Please provide a better tutorial on how to upgrade your planet and such functions. There is no in-game tutorial either.. This game definitely has a steep learning curve, which stopped me from playing it for a while, but once you learn how the game actually works it becomes a lot of fun. It has some drawbacks, like how upgrading anything but weapons at the beginning leads to instant death, and the default settings being weird, but it also has some fun gameplay, oodles of replayability, and bunch of weapons and enemies. Furthermore, this game looks great and I have yet to encounter any bugs in it. In short: Worth the two dollars you should get it.. This game definitely has a steep learning curve, which stopped me from playing it for a while, but once you learn

how the game actually works it becomes a lot of fun. It has some drawbacks, like how upgrading anything but weapons at the beginning leads to instant death, and the default settings being weird, but it also has some fun gameplay, oodles of replayability, and bunch of weapons and enemies. Furthermore, this game looks great and I have yet to encounter any bugs in it. In short: Worth the two dollars you should get it.. It needs a bit more polish before it's as accessible as say, downwell.but it's charming and fun in its own, minimal way.. It needs a bit more polish before it's as accessible as say, downwell.but it's charming and fun in its own, minimal way.
